Dear Harold,

Thank you very much for your prompt reply on Deslatte. I shall simply say "obtained by H.W. under FOI request, 1979". I am curious about your remark that "Moore" can be a provocative name. Clearly, I see what you mean if one were to do the labour -as somebody should - to find out who Moore was. But do you already know something that makes him provocative now? If so, I think the Deslatte thing is potentially important enough to include it (the "something" on Moore) in my writings and even perhaps to do some more digging on my own.

Would you advise?

Thanks again.

Sincerely,

Tony
